

The Shiatsu School of Canada

Sexual Violence and Harassment Policy

1. Policy Application

This Policy applies to all members of The Shiatsu School of Canada (SSC) community as defined, including students, staff, faculty, administrators, contract service providers, contractors, officers, directors and individuals who are directly connected to any of The Shiatsu School of Canada's initiatives, operations, volunteers and visitors.

2. The Scope

This Policy applies to complaints of sexual violence that have occurred at The Shiatsu School of Canada's facility or at an SSC event or offsite activity and involves members of The Shiatsu School of Canada community as defined in paragraph one, the Policy Application.

3. Purpose and Intent

All members of the The Shiatsu School of Canada community have a right to study and work in an environment free of sexual violence.

This document sets out SSC's policy on sexual violence, defines the prohibited behaviours, and outlines the investigative processes for sexual violence.

4. Policy Objectives

The Shiatsu School of Canada is committed to providing members of its community an educational environment free from sexual violence and treating those individuals who report incidents of sexual violence with dignity and respect.

To that end, The Shiatsu School of Canada will educate faculty, staff and students about this Policy and how to identify situations that involve, or could progress into sexual violence and how to reduce these forms of prohibited behaviours.

Where a complaint has been made of sexual violence, under this Policy, The Shiatsu School of Canada will take all reasonable steps to investigate it, including as follows:

- responding promptly to any complaint and providing reasonable updates to the complainant and the respondent about the status of the investigation;
- assisting those who have experienced sexual violence in obtaining counselling and medical care;
- providing those who have experienced sexual violence with appropriate academic and other accommodation;
- providing those who have experienced sexual violence with information about reporting options; and
- providing on-campus investigation procedures for sexual violence complaints.

5. Definition of Sexual Violence

This Policy prohibits sexual violence which means any sexual act or act targeting a person's sexuality, gender identity or gender expression, whether the act is physical or psychological in nature, that is committed, threatened or attempted against a person without the person's consent, and includes sexual assault, sexual harassment, stalking, indecent exposure, voyeurism and sexual exploitation.

6. Reporting and Responding to Sexual Violence

All members of The Shiatsu School of Canada community will take all reasonable steps to prevent sexual violence at the SSC facility or at SSC events and report immediately to The Shiatsu School of Canada Director if they are subject to, witness or have knowledge of sexual violence, or have reason to believe that sexual violence has occurred or may occur.

Subject to section 7 below, to the extent it is possible, the Director will attempt to keep all information disclosed confidential except in those circumstances it believes an individual is at imminent risk of self-harm, or of harming another, or there are reasonable grounds to believe that others in The Shiatsu School of Canada community are at risk.

The SSC recognizes the right of the complainant to determine whether her or his complaint will be dealt with by the police and/or internally by SSC. However, in certain circumstances, The Shiatsu School of Canada may be required by law or its internal policies to initiate an internal investigation and/or inform police without the complainant's consent, if it believes the safety of members of its community is at risk.

Where a complaint of sexual violence has been reported to the College, the College will exercise care to protect and respect the rights of both the complainant and the respondent. The College understands that individuals who have experienced sexual violence may wish to control whether and how their experience will be dealt with by the police and/or the College. In most circumstances, the person will retain this control. However, in certain circumstances, the College may be required to initiate an internal investigation and/or inform the police of the need for a criminal investigation, even without the person's consent, if the College believes that the safety of other members of the College community is at risk. The confidentiality and anonymity of the person(s) affected will be prioritized in these circumstances.

A formal report of an incident of sexual violence is not necessary to access supports, services or accommodations. The victim may choose not to request an investigation by the Shiatsu School of Canada, and has the right not to participate in any investigation that may occur. However, SSC may continue to act on the issue identified in the complaint in order to comply with its obligation under this Policy and/or its legal obligations.

During the investigation and decision-making process, any party has the right to have a person present with him or her at every stage of the process.

7. Investigating Reports of Sexual Violence

A complaint of sexual violence may be filed under this Policy, by any member of The Shiatsu School of Canada community, to the Director, in writing. The complaint should be addressed to:

Enza Ierullo
Executive Director
The Shiatsu School of Canada Inc. & SSC Acupuncture Institute
455 Spadina Avenue, Suite 300
Toronto, Ontario, M5S 2G8

Upon a complaint of alleged sexual violence being made, the Director will initiate an investigation, including as follows:

- determining whether the incident should be referred immediately to police;
- meeting with the complainant to determine the date and time of the incident, the persons involved, the names of any person who witnessed the incident and a complete description of what occurred;
- interviewing the complainant, any person involved in the incident and any identified witnesses;
- interviewing any other person who may have knowledge of incidents related to the complaint or any other similar incidents;
- informing the respondent of the complaint, providing details of the allegations and giving the respondent an opportunity to respond to those allegations;
- providing reasonable updates to the complainant and the respondent about the status of the investigation; and
- determining what disciplinary action, if any, should be taken.

The College will seek to achieve procedural fairness in dealing with all complaints. As such, no sanction and/or disciplinary action will be taken against a person or group without their knowledge where there is an alleged breach of this Policy. Respondents will be given reasonable notice, with full detail of the allegations and provided with an opportunity to answer to the allegations made against them.

8. Disciplinary Measures

If it is determined by The Shiatsu School of Canada that a member of its community has been involved in sexual violence, immediate disciplinary or corrective action will be taken, which may include termination of employment, contract, or expulsion.

In cases where criminal proceedings are initiated, The Shiatsu School of Canada will assist police agencies, lawyers, insurance companies, and courts to the fullest extent.

Where criminal and/or civil proceedings are commenced in respect of allegations of sexual violence, The Shiatsu School of Canada may conduct its own independent investigation and make its own determination in accordance with its own policies and procedures.

9. Making False Statements

It is a violation of this Policy for anyone to knowingly make a false complaint of sexual violence or to provide false information about a complaint. Individuals who violate this Policy are subject to disciplinary and / or corrective action, up to and including termination of employment or expulsion.

10.Reprisal

It is a violation of this Policy to retaliate or threaten to retaliate against a complainant, acting in good faith, who has brought forward a complaint of sexual violence, provided information related to a complaint, or, otherwise been involved in the complaint investigation process.

11. Review

This policy will be reviewed by May 2020 for necessary additions and amendments. It may also be revised from time to time based upon the final revisions to Bill132 and as policies may be issued by the Superintendent for the Ministry of Advanced Education and Skills Development, Colleges and Private Career Colleges, PC Branch.

12.Resources

Appendix 1 lists provincial rape crisis centres which could be provided as resources.
